

Campus Ministry Grant Report Form

OVERVIEW: As a part of the Campus Ministry Network, campus ministers can acquire funds from Next Generation Ministries through a grant application. Regular reporting about the campus ministry is an ongoing expectation for campus ministries that receive grant funding. Each campus ministry will report on how grant funds were spent and distributed, how the funds were spent in the connect, grow, lead model, and how the connect, grow, lead model was executed in the campus ministry. The report will also include feedback on the campus minister’s experience with the Campus Ministry Network, including the benefits and challenges of participating, and their recommendations for making the experience more constructive.
